the recent destructive fire at the Thamesbank, London, of a machine fetched from a shop a mile or so away when the fire had been running for several of three hours. The machine was brought to the premises of the maker on the third floor, extinguished by firemen, and sent to the premises of the maker, a small factory in the country. The machine was found to be the same as the one which was destroyed at the fire at the Thamesbank, London, on the night of the 10th of the month. The machine was found to be the same as the one which was destroyed at the fire at the Thamesbank, London, on the night of the 10th of the month.
